Mobile: +91 7357752345

Full Stack and React Native Developer with 1+ year of experience in building scalable MERN stack web applications and cross-platform mobile apps for Android and iOS. Proficient in developing real-time systems using Socket.io, designing secure RESTful APIs with JWT and role-based access control, and managing end-to-end mobile app deployment on the Google Play Store. Adept at working in Agile environments, collaborating with cross-functional teams to deliver production-ready features from design to deployment. Passionate about writing clean, efficient code and continuously exploring new technologies to build better digital experiences.

EDUCATION

S.S. Jain Subodh P.G. College (R.T.U.) Jaipur, India
Master of Computer Application (M.C.A.) **2024 – Present**

S.S. Jain Subodh P.G. College (R.U.) Jaipur, India
Bachelor of Computer Application (B.C.A.) **2021 – 2024**

SKILLS SUMMARY

Core Development

- **Frontend**: React.js, Redux, Tailwind CSS, Responsive Design
- **Mobile**: React Native (iOS & Android), Xcode, Android Studio.
- **Backend**: Node.js, Express.js, RESTful APIs, Socket.io, Cron Jobs.
- **Databases**: MongoDB, MySQL.

Cloud & Infrastructure

- **PaaS & Hosting:** Vercel, Render, Zoho.
- **Google Cloud**: OAuth.

Integrations & DevOps

- **Payments**: PhonePe, NFC Card Systems.
- Deployment: Google Play Console, Zoho Catalyst, Vercel, Render.
- **Tools**: Git, GitHub, VS Code, Canva (UI/UX Design).

WORK EXPERIENCE

Full Stack Developer | HSDK Technologies Pvt. Ltd — Jan 2025 – Present

- Full-Stack & Mobile Delivery: Built and deployed scalable MERN stack web platforms and cross-platform React Native mobile applications for Android and iOS, from UI design to production release.
- Real-Time Systems: Engineered Socket.io-powered modules for live order tracking, real-time notifications, and instant data synchronization across web and mobile platforms.

- Dashboard & UI Development: Designed responsive dashboards for admins, suppliers, and staff using React.js and Tailwind CSS, enhancing real-time visibility into orders, inventory, and vendor performance.
- API & Security: Developed RESTful APIs with JWT-based authentication and role-based access control (RBAC), ensuring secure and structured data flow across multi-platform environments.
- Play Store Deployment: Managed complete mobile app release lifecycle including build configuration, internal testing, and production deployment on Google Play Console.

PROJECTS

- **Freshopure (HoReCa Procurement SaaS)** Link
  Developed a specialized procurement platform using the **MERN stack**, leveraging **Azure Cognitive Services** and **GPT-4o** for intelligent data processing. Integrated **Azure Blob Storage** and **AWS Amplify** to manage large-scale food supply chain operations and media assets.

- **POS by Freshopure (Canteen POS System)** Link
  Architected a high-performance web-based POS using **Zoho Catalyst** and **Render**, featuring **OAuth** security and automated **Cron** jobs. Engineered a hardware-to-software bridge for **NFC Card Systems** and **PhonePe** to facilitate rapid, contactless canteen transactions.

- **Freshopure Foods App (Consumer POS Mobile)** (In Close Testing)
  Built a cross-platform food ordering application using **React Native CLI**, focusing on a seamless user experience and secure **NFC payment** integration. Managed the end-to-end deployment lifecycle for a successful release on the **Google Play Store**.

ACHIEVEMENTS

- **Full-Stack Web Development Campus Training, 2024**: Successfully completed comprehensive training in end-to-end web application development and deployment.
- **Runner-up, NSD 2023:** Awarded for excellence in scientific innovation and problem-solving.

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
