Full Stack & React Native Developer with 1.5 years of professional experience at HSDK Technologies, building production-grade MERN web applications and cross-platform mobile apps for Freshopure — a HoReCa SaaS product. Delivered 3 live applications including an AI-powered procurement platform (Azure Cognitive Services + GPT-4o), a hardware-integrated canteen POS system with NFC & PhonePe payments, and a consumer mobile app successfully deployed to the Google Play Store. Proficient in real-time systems (Socket.io), secure API design (JWT, RBAC), and cloud integrations (Azure, Zoho Catalyst, AWS Amplify). Thrives in agile environments and passionate about writing clean, scalable code.

SKILLS SUMMARY

Core Development

- **Frontend:** React.js, Redux, Tailwind CSS, Responsive Design
- **Mobile:** React Native (iOS & Android), Xcode, Android Studio.
- **Backend:** Node.js, Express.js, RESTful APIs, Socket.io, Cron Jobs.
- **Databases:** MongoDB, MySQL.

Cloud & Infrastructure

- **PaaS & Hosting:** Vercel, Render, Zoho.
- **Google Cloud:** OAuth.
- **AI & Cloud:** Azure Cognitive Services, GPT-4o, Azure Blob Storage, AWS Amplify.

Integrations & DevOps

- **Payments:** PhonePe, NFC Card Systems.
- **Deployment:** Google Play Console, Zoho Catalyst, Vercel, Render.
- **Tools:** Git, GitHub, VS Code, Postman, Canva.

WORK EXPERIENCE

Full Stack Developer | HSDK Technologies Pvt. Ltd

Jan 2025 – Present

Building Freshopure — a HoReCa SaaS platform (Jaipur, India)

- **Full-Stack & Mobile Delivery:** Architected and shipped 3 production applications (2 web + 1 mobile) on the MERN stack and React Native, handling end-to-end delivery from UI design to Play Store release — serving real users across the Freshopure HoReCa platform.
- **Real-Time Systems:** Engineered Socket.io-powered modules for live order tracking, instant notifications, and real-time data sync — supporting concurrent sessions across multiple restaurant stations and kitchen displays simultaneously.

- **Dashboard & UI Development:** Built 4+ responsive admin, supplier, and staff dashboards using React.js + Tailwind CSS, giving stakeholders real-time visibility into orders, inventory levels, and vendor performance metrics.
- **API & Security:** Designed and secured RESTful APIs with JWT authentication and role-based access control (RBAC) for 3 distinct user roles (Admin, Supplier, Staff), ensuring structured and protected data flow across web and mobile platforms.
- **Play Store Deployment:** Owned the complete Android release lifecycle — APK signing, Play Console configuration, internal and closed testing tracks, and successful production deployment, achieving a live public launch on the Google Play Store.

PROJECTS

- **Freshopure (HoReCa Procurement SaaS)** [Link](#)
Developed a specialized procurement platform using the **MERN stack**, leveraging **Azure Cognitive Services** and **GPT-4o** for intelligent data processing. Integrated **Azure Blob Storage** and **AWS Amplify** to manage large-scale food supply chain operations and media assets.
- **POS by Freshopure (Canteen POS System)** [Link](#)
Architected a high-performance web-based POS using **Zoho Catalyst** and **Render**, featuring **OAuth** security and automated **Cron** jobs. Engineered a hardware-to-software bridge for **NFC Card Systems** and **PhonePe** to facilitate rapid, contactless canteen transactions.
- **Freshopure Foods App (Consumer POS Mobile)** [Play Store](#) | [App Store](#)
Built a cross-platform food ordering application using **React Native CLI**, focusing on a seamless user experience and secure **NFC payment** integration. Managed the end-to-end deployment lifecycle for a successful release on the **Google Play Store**.

EDUCATION

S.S. Jain Subodh P.G. College (R.T.U.)	Jaipur, India
Master of Computer Application (M.C.A.)	2024 – 2026
S.S. Jain Subodh P.G. College (R.U.)	Jaipur, India
Bachelor of Computer Application (B.C.A.)	2021 – 2024

ACHIEVEMENTS & CERTIFICATIONS

- **Runner-up** — National Science Day (NSD) 2023, Scientific Innovation Category
- **Completed Campus Training in Full-Stack Web Development** — Certification, 2024
